

COPPER 25CM ROUND

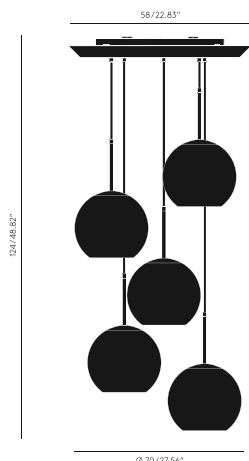

Copper is created by exploding a thin layer of pure metal onto the surface of a polycarbonate globe. Complimentary forms are created in the trademark mirrored copper, allowing clusters to be formed, lower ceilings to be illuminated or narrow corridors to be colonised by the Copper family.

COPPER 25CM ROUND

Copper CLPS02-PUSM1

Year of Design 2015
Material Polycarbonate
Ceiling Canopy: Plastic and Steel

Bulb Spec E12 40W (max). Bulb not included.
Cable Spec 250cm/98.4in clear cable.

Process

Formed using a technically advanced process of vacuum metallisation. The process involves vaporising a small amount of pure copper at a very high temperature and then sucking it onto a surface by applying an electrical charge.

Cleaning Instructions

Clean with a soft dry cloth only. Do not use polishing agents, water or abrasive materials when cleaning. Always switch off the electricity supply before cleaning.

COPPER ROUND 25CM

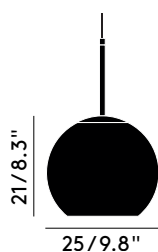

Copper shade is an over-sized, blow moulded and perfectly reflective globe that kick started the recent craze for copper in interiors the world over. This year we strip away the copper in favour of two new radical attitudes. In high-reflective Blue, Copper shade takes on the weightless form of a helium-filled balloon, an unidentified space-age object. In fetish black, Copper Shade becomes a patent monochromatic orb, a slick black ball with a metallised aluminium interior.
